Customer Problem Statement Template:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	Healthcare analyst or decision-maker.	Identify key risk factors contributing to heart disease.	The dataset contains multiple variables that are difficult to interpret without visualization.	Relationships between lifestyle habits, medical conditions, and demographics are not clear in raw data format.	Uncertain about identifying high-risk groups effectively
PS-2	Public health researcher.	Understand how lifestyle factors like smoking, alcohol, physical activity, and sleep affect heart disease.	I cannot easily compare patterns across age groups, gender, and race categories.	The data is not transformed into meaningful visual insights.	Limited in designing targeted intervention strategies.
